

EPILEPSY FOUNDATION

Kentuckiana

Kosair Charities Centre ▪ 982 Eastern Parkway ▪ Louisville, KY 40217

Trainings Programs Provided by the Epilepsy Foundation of Kentuckiana:

Seizure Training for School Personnel

Provides teachers and other school personnel with information they need to recognize types of seizures, the impact seizures can have on students developmentally and educationally, and how to respond with safe and appropriate first aid.

Length of Program: 45 – 60 minutes (depending on questions)

Managing Students with Seizures: A Training for School Nurses

Provides school nurses with information they will need to recognize seizures and their impact on students, and to respond to seizures with the appropriate first aid. Nurses will learn strategies for working with teachers and parents to ensure that the student's needs are met in relation to their epilepsy. This program offers 3.2 CNE credits free of charge if booked at least 60 days in advance.

Length of Program: 3.5 hours

Epilepsy 101

Provides participants with information regarding seizure recognition and first aid, the impact seizures can have on an individual, and treatment options. This training can be tailored to suit any group.

Length of Program: 45 – 60 minutes (depending on questions)

Epilepsy & Seizure Response for First Responders: Law Enforcement Personnel Training

Provides law enforcement personnel with information they need to increase an officer's awareness and understanding of the nature, causes, and effects of seizure disorders.

Length of Program: 45 – 60 minutes (depending on questions)

Epilepsy & Seizure Response for First Responders: Emergency Medical Services Personnel Training

Provides EMS personnel with information and seizure response training that is crucial to an effective EMS response to seizures.

Length of Program: 45 – 60 minutes (depending on questions)

Take Charge of the Facts: Seizures & You

This training is appropriate for students in Grades 4 - 12. It provides students with a basic knowledge of the different seizure types, first aid responses for each seizure type, and a discussion to help reduce stigma and misperceptions about seizures and epilepsy. This training can be a part of a science unit regarding communicable vs. non-communicable diseases.

Length of Program: 45 – 60 minutes (depending on questions)

Take Charge of the Storm, Jr.

This training is for students age K – 5. It provides students with an age appropriate discussion about seizures and epilepsy. It encourages the reduction of epilepsy related stigma.

Length of Program: 45 minutes
